

**Cost-effective and safe drinking water for everyone**

**safewat**

15.11.2023.

## From the English proposal:

- ▶ Together, we will investigate the application of novel technologies which we believe can help ensure river bank filtration water sources can continue to be exploited long into the future.
- ▶ The main result will be **development of a remediation technology for treatment of river bank filtration source zones** which were previously contaminated with organic pollutants.
- ▶ In addition, the project will **develop methods to improve drinking water treatment specifically aimed at river bank filtration sources**, and utilise the results of our investigations, together with a variety of modelling tools, to **define preventive and corrective measures to improve water source protection**.
- ▶ What are our obligations for 1<sup>st</sup> progress report?

Expected progress: WP1 done,  
WPs 2, 3, 4, 6 in progress

**Project start: Jan 2023**

Notes

2021-17243/NP/OPEN CALL (Progress Report)

Progress Report Date: 01/12/2023

Deadline Date: 01/01/2024

INFORMATION OF PARTNERSHIP

\* Has the consortium started working on the project?

Yes ▼

\* If not, please state reasons

If started, please indicate "n/a".

Dec 15th

\* Summary of the cooperation between all partners over the prescribed period, according to the consortium agreement and project application

No limit

## ✓ Information On Work Progress

\* Summary and aims of the period

No limit

Identify Deviations (if any since the last report)

No limit

\* Initially planned Milestones/Deliverables/Budget and the impact on the project

No limit

## INFORMATION OF PARTNERSHIP

\* Current status (completed/ongoing/not started) of the work packages, as well as status (achieved/on track/ delayed) of tasks, deliverables and milestones.

No limit

Major technical changes to the methodology or goals of the project, description of the change and reasons for it

No limit

If problems have been encountered, description of the problems, the corrective measures undertaken (planning, resources, technical...) and their outcomes.

No limit

## ✓ Future expectations of the project

\* Information about the intermediate results obtained or any recent successes.

No limit

## INFORMATION OF PARTNERSHIP

---

### ✓ Future expectations of the project

---

\* Information about the intermediate results obtained or any recent successes.

No limit

\* Indication whether the expectation of the project is still valid or whether there could be any deviation of the project in the medium term which can affect the financing, the planning and expected results.

No limit

### ✓ Other Information

---

Add any kind of information that could be of interest for the monitoring of the project
